Procuo novas oportunidades - Solution Architect - Responsável  
Unidade de Arquitectura & Soluções-Seguradoras Unidas  
Lisbon Area, Portugal

## Resumo

Experience with a demonstrated history of working in the insurance industry.

Skilled in Business Process, Databases, Business Intelligence, Cloud platforms, CRM, IT Architecture strategy.

Strong vision on new implementations with new technologies and integration concern.

As Manager of IT Architecture Unit my team am i consolidated all different applications in common areas.

Among others, here are some of the implementations:

- integration services through a SOA platform
- centralized use of authorizations and authentication with an IAM implementation
- an availability 24/7 system
- coordination the Database team to approach the needs of the architecture with adequate solutions in the processes and procedures in the Database.
- Selection and implementation of open source products.
- Implement a system data search solution in an unstructured way with in-context navigation and segregation/limitation of data access.
- Monitoring and alarm solutions.
- Accompany the different initiatives of the GDPR, among many other solutions.
- Implementation of Workflow integrated with the architecture solution
- Implementation of CRM Salesforce Contact Center for Logo and Tranquilidade with architecture solution integration
- implementation of a MDM solution
- Implementation of Data Migration process and from Açoreana to Tranquilidade's Systems

PS: I'm addicted to Microsoft T-SQL (MSSQL) tuning and programming.  
Ssis Etl programming is also included.

---

## Experiência

Seguradoras Unidas

Solutions Architect

janeiro de 2011 - dezembro de 2018 (8 anos)

Lisbon Area, Portugal

Head of Architecture and IT Solutions Unit at Seguradoras Unidas

Tranquilidade

22 anos

Director Serviços

maio de 2005 - 2018 (13 anos)

Since i assumed this role as head of the Divisão de Canais e Interfaces, which included development teams of non core systems, I took the draft core system migration from mainframe to windows. In the meantime I leaded the Office of Architecture and Solutions and in 2009 i assumed the role of Technical Director of Migration to Cloud Computing in Salesforce of the Logo Company.

Chefe Projecto

junho de 1996 - maio de 2005 (9 anos)

During this period I worked as project manager and implemented several projects in Railway company CP and Tranquilidade using Mapper language from Unisys, among others. I also worked on Unix systems, installation, configuration and tuning.

BES

Grupo

1996 - 2015 (19 anos)

Seguros LOGO, SA

IT

2009 - 2011 (2 anos)

With the IT migration project of Logo for the integration with Tranquilidade's IT and its Sites in Cloud Computing, Salesforce.Com, I started to be directly

involved in the current reality and future of the company. In 2009 i replaced the previous IT Director until the completion of the project.

## Regra

### Chefe Projecto

junho de 1988 - junho de 1996 (8 anos 1 mês)

During this period I was working both in component systems and development projects, usually in partnership with Unisys.

## Unisys

.

1990 - 1996 (6 anos)

Although still in Regra, i worked several years on a project for Unisys in Tranquilidade.

## Hovione

### Programador

janeiro de 1984 - junho de 1988 (4 anos 6 meses)

---
